

AKHILESH SONI

Backend Developer

akhileshsoni098@gmail.com | [+91 9125292910](tel:+919125292910) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Backend Developer with 3+ years of experience building scalable e-commerce, EdTech, and AI-powered mobile applications. Proficient in Node.js, Express, MongoDB, and AWS with expertise in payment integrations, real-time systems, authentication, and API development. Led backend development for multiple live applications with 10,000+ users.

PROFESSIONAL EXPERIENCE

EasyRyt

Backend Developer (Remote)

March 2023 – Present

- Developed and maintained backend systems for e-commerce and AI-based mobile applications using Node.js, Express, and AWS
- Integrated OpenAI API, Seedreams AI, Razorpay, Square, Stripe, and Cloudinary for enhanced functionality
- Built secure authentication systems, role-based access control, real-time chat, subscription engines, and wallet logic
- Led backend development for multiple live apps under EasyRyt Labs' Google Play developer account

FunctionUp

Backend Developer Trainee

November 2022 – March 2023

- Built projects using Node.js, Express.js, MongoDB, and AWS fundamentals
- Worked on URL shortener, e-commerce APIs, authentication systems, payment integrations with Stripe, ExcelJS data processing, and Cloudinary media management

KEY PROJECTS

Margyn for Seller - AI-first Seller Toolkit

[Node.js](#) | [Express](#) | [MongoDB](#) | [Socket.IO](#) | [AWS EC2](#) | [Seedreams AI](#)

- Engineered full backend with seller calculators, wallet/credits system, subscriptions, image workflows, and verified-lead system
- Integrated Seedreams/ByteDance AI for background removal, enhancement, variations, and product image generation
- Implemented real-time buyer-seller lead claiming with atomic credit deduction using Socket.IO
- Designed schemas for wallets, leads, credit transactions, subscriptions, chats, and image jobs with comprehensive audit logging

Z App - EdTech & School/Tuition Platform

[Node.js](#) | [Express](#) | [MongoDB](#) | [Razorpay](#) | [Cloudinary](#) | [AWS EC2](#)

- Built student, teacher, and parent dashboards with attendance tracking, tests, results, analytics, PTMs, and content modules
- Integrated Razorpay for payments with webhook verification and complete transaction lifecycle management
- Designed schemas for classes, attendance, tests, results, materials, and academic workflows
- Deployed and secured the platform on AWS EC2 with Nginx and PM2 for production stability

upClass - Multi-Tenant SaaS Platform

[Node.js](#) | [Express](#) | [MongoDB](#) | [Razorpay](#) | [AWS EC2](#)

- Architected multi-tenant SaaS system with Admin, Owner, Vendor/Teacher (white-label), and Student panels
- Built vendor white-label portals supporting custom branding, landing pages, and independent login flows
- Added course management, attendance, exams, results, analytics, CMS, subscriptions, and automated Razorpay billing
- Implemented multi-tenant data separation with secure RBAC and optimized deployment pipelines

PulseAdvi - Mobile App Install Ad Platform

[Node.js](#) | [Express](#) | [MongoDB](#) | [JWT](#) | [OpenAI](#) | [Fast2SMS](#) | [AWS EC2](#)

- Developed complete ad platform where advertisers run app-install campaigns funded by wallet top-ups
- Integrated OpenAI agent for AI-powered install verification and review analysis
- Added Fast2SMS for real-time alerts, points system, wallet transactions, and approval workflows
- Built schemas for campaigns, wallets, SMS logs, analytics, users, points, and admin controls

AI-powered NotaAI App

[Node.js](#) | [OpenAI API](#) | [MongoDB](#)

- Built AI-driven mobile app for smart notes, OCR, chat, and text utilities using OpenAI models
- Implemented secure email login, restore/delete logic, and optimized data management workflows

TECHNICAL SKILLS

Backend & Languages

JavaScript (ES6+), Node.js, Express.js, REST APIs, Microservices, Socket.IO

Databases & Caching

MongoDB, Mongoose, Redis

Authentication & Security

JWT, RBAC, OAuth, Secure Auth Systems

Payment Integrations

Razorpay, Stripe, Square, Wallets, Subscriptions, Webhooks

AI & Automation

OpenAI API, Seedreams AI, ByteDance AI, groq AI Agents

Cloud & DevOps

AWS (EC2, S3), Cloudinary, Docker, CI/CD (GitHub Actions), PM2, Nginx, Linux

Tools & APIs

Git, Postman, VS Code, ExcelJS, Fast2SMS, Nodemailer

EDUCATION

Siddharth University

Bachelor of Science (B.Sc.) in Physics
2016 – 2022 | 52.02%

M U Chaudhary Intermediate College

Intermediate
2015 – 2016 | 80.40%

ACHIEVEMENTS

- Solved 100+ problems on LeetCode
- Led backend development for multiple live mobile applications

LANGUAGES

English: Conversational
Hindi: Native/Fluent
